2. I turn the dial on my radio
Trying to find an all night station
I want to hear a song I know
A song about my situation.

Somewhere out there, there must be a boy for this girl
Could be anywhere, could be next door
Or the other side of the world.

%. Call up the radio give them my number
Tell them to put it out on the air
There must be someone
There must be someone like me
Sitting lonely as a boat out there.
